

K.S. McCRAE SOMATIC LEXICON SYSTEM

Build Notes — Current Session

Compiled: 2026-04-12

Build: v2.0

Status: Clean — 0 errors

Build Output

File	Size	Purpose
agents/master_lexicon.json	1216 KB	AI Agents API deployment payload
agents/runtime_payload_schema.json	1 KB	Runtime schema reference
agents/skill_prompt.md	13 KB	System prompt injection

Lexicon State

Component	Count	Notes
Registers	5	female, male, shared, trans_feminine, trans_masculine
Anatomical	46	F:10 M:9 Shared:14 Trans:13
Fluids	19	staging:9 atmospheric:3 blend:2 trace:2 parallel:3
Tropes	44	+10 this session (was 34)
Pairs	13	IS:5 DS:2 Penetration:3 Site_Surface:3
Banned terms	179	compiled flat list
Errors	0	clean (was 7)

Changes This Session

1. New Tropes (34 → 44)

Ten new trope entries built, validated, and confirmed in compiled lexicon:

Trope	Register	Key signature
trope_voyeurism_exhibition	Variable	Display/gaze axis — both sides sovereign. Consensual only.
trope_impact_play	Variable	Warmth sequence: bright → burn → bloom → hold. Craft not abandon.
trope_public_sex	Variable	Environment as witness — earth/sky as altar. Risk register.
trope_praise	Variable	The word lands in the body before the mind. Specific not generic.
trope_ruined_orgasm	Sovereign/Governed	Broken jets or seep — never arcs. Body past threshold, stimulation withdrawn.
trope_multiple_orgasm	Variable	Cascade register — each release sooner than the last.
trope_service	Variable	Skilled attendance, practiced presence. Craft not consecration.
trope_body_modification_scene	Sovereign/Yielding	Wax/shave/remaking IS the arc. MTR Arc 2 primary scene.
trope_karezza	Variable	Sustained threshold — cock within, neither moving. Flood held.
trope_sensation_play	Variable	Calibrated sensory layers — below the overload register.

Trope distinctions added to skill_prompt

The following common confusions now have explicit disambiguation in the compiled skill_prompt:

- `ruined_orgasm` VS `orgasm_control` — ruined is past threshold, stimulation withdrawn; `orgasm_control` is permission architecture before threshold
- `service` VS `worship` — service is skilled attendance and craft; worship is body as altar and consecration
- `karezza` VS `slow_sex` — karezza holds the threshold specifically; `slow_sex` is pace and deprioritised climax
- `multiple_orgasm` VS `orgasm_control` — cascade past first release vs permission structure
- `sensation_play` VS `sensory_overload` — calibrated build below capacity vs body past capacity
- `sensation_play` VS `temperature_play` — sensation uses temperature as one tool; `temperature_play` centres it
- `impact_play` VS `e_stim` — physical strike warmth sequence vs electrical current

Consent architecture updated

New tropes requiring consent embedded in language (added to skill_prompt consent list):

```
impact_play voyeurism_exhibition public_sex body_modification_scene  
multiple_orgasm ruined_orgasm karezza
```

2. `tits` removed from banned terms

female_breasts.yaml — `tits` removed from `Absolute_Bans`, commented with v2.0 permission note.

register_female.yaml — `tits` removed from `Banned_Terms.Breasts.Primary_Bans`, permission note added. `Informal_Allowed: tits` added to breasts site entry.

skill_prompt.md — preferred terms table already reflected: `tits (urgency/active)` as informal register.

Compile verification:

- `tits` in `banned_terms_flat`: **False** ✓

- `titties`, `titty`, `titspray`, `tit_milk` in `banned_terms_flat`: **True** ✓ (diminutives remain banned)
- `tits` in `female-breasts Informal_Allowed`: **True** ✓

Register discipline (unchanged):

- `breasts` — sacred/devotional/nourishment/worship register
- `tits` — active arousal/physical urgency/handling/saturation register
- All diminutive forms (`titties`, `titty`) remain banned throughout

3. Seven YAML errors fixed

All 7 pre-existing errors were stale **root-level copies** of files superseded by correct canonical versions in subdirectories. The canonical files had no errors; the root copies carried original syntax faults from early build sessions.

Resolution: deleted the 7 stale root-level copies.

Deleted stale file	Canonical (clean) location
<code>female_clitoris.yaml</code>	<code>anatomical/female/female_clitoris.yaml</code>
<code>tf-breasts.yaml</code>	<code>anatomical/trans/tf-breasts.yaml</code>
<code>tm-front.yaml</code>	<code>anatomical/trans/tm-front.yaml</code>
<code>tm-arousal.yaml</code>	<code>fluids/trans/tm-arousal.yaml</code>
<code>tm-chest.yaml</code>	<code>anatomical/trans/tm-chest.yaml</code>
<code>tm-sac.yaml</code>	<code>anatomical/trans/tm-sac.yaml</code>
<code>trope-sounding.yaml</code>	<code>tropes/trope-sounding.yaml</code>

File scan count: 238 (with stale copies) → **231** (clean).

4. Register updates (v2.0)

All five registers rebuilt as v2.0 this session:

register_female.yaml

- `tits` removed from banned, `Informal_Allowed: tits` in breasts site
- Four-layer authoring model header
- `Trope_Index` — all 44 tropes with relevance ratings
- `Pair_Index` — 13 pairs including `pair_cunt_cunt`
- `Fluid_Index` with staging sequences
- `Power_Primitives`, `Motion_Primitives`, `Scene_Role_Primitives`, `Fluid_Staging_Primitives`
- `Scene_Activation` block (was male-only in v1)
- Corpus sacred terms integrated

register_male.yaml

- `cock` confirmed as PRIMARY TERM with explicit note
- `Trope_Index`, `Pair_Index`, `Fluid_Index` added
- Feminization dual-register primitives formalised
- Pre-gloss truth register formalised
- All primitives blocks added

register_shared.yaml

- Atmospheric fluid governance formalised (`musk` / `sweat` never discrete events)
- `Trope_Index`, `Pair_Index` added
- Primitives blocks added

register_trans_feminine.yaml / register_trans_masculine.yaml

- Pre-existing syntax errors fixed
- `Absolute_Rules` block added as highest-priority System Layer
- `Character_Terminology_Governs` formalised
- `Constructed_Anatomy_Is_Real` (TF) structural rule
- `Never_Feminise_Without_Direction` (TM) structural rule
- `Scars_Are_Record` (TM) structural rule

- `Feminization_Trope_Distinct_From_Identity` (TF) formalised
-

5. master_index.yaml updated

- `Tropes.Count` : 34 → 44
 - `Tropes.Files` : 10 new entries, alphabetically inserted
 - `Tropes.Consent_Required` : 8 → 15
 - `Tropes.New_In_Current_Session` : new block
 - `Build_Log.Session_New_Tropes` : new entry
 - `Status_Summary` : 44/44 complete
-

6. build.py updated

- Schema description string: "34 trope entries" → "44 trope entries"
 - Consent architecture line: 8 → 15 tropes (3 lines)
 - `## TROPE DISTINCTIONS` section added to skill_prompt output
 - `## NEW TROPES (v2.0)` table added to skill_prompt output
-

Pending Items

The following remain on the backlog from earlier sessions and have not been addressed in this build:

1. **Pair entries** — 12 pairs were rebuilt to v2.0 in a previous session with new template (Intersection_Register, Somatic split by perspective, Transition split by layer). These are correct and building cleanly.
2. **register_rules.yaml / tonal_governors.yaml / banned_terms.yaml** — validation files rebuilt to v2.0 in a previous session. Building cleanly. No changes this session.
3. **Enhanced metadata schema** — `female_cunt v1.3` tested with `Dependencies`, `Produces`, `Modifies`, `Entry_Conditions`, `Scene_Roles`, `Fluid_Behaviour`. Not yet rolled out to remaining anatomical entries.
4. **Female-female pair register** — `pair_cunt_cunt` built and building. Story extraction

from additional published works to surface further FF vocabulary gaps not yet done.

- 5. **Made to Receive** — six arcs defined (Adorned, Remade, Weight of Her, Flood and Gold, Release, Trust). Tropes for all six arcs now complete. Story not yet drafted.

Vocabulary Governance Verification

Key governance rules confirmed active in compiled lexicon:

Rule	Status
<code>tits</code> not in banned_terms_flat	✓
<code>titties</code> , <code>titty</code> in banned_terms_flat	✓
<code>cock</code> as primary male term (not banned)	✓
Female sovereignty fixed regardless of act	✓ (register_female Power_Architecture)
TF sovereign register identical to female	✓ (Absolute_Rules)
TM never feminised without direction	✓ (Absolute_Rules)
Scars as record — never damage	✓ (Absolute_Rules)
Earth trace max 1 line	✓ (fluid entries)
Atmospheric fluids never discrete events	✓ (shared register + skill_prompt)
Pair vocabulary only when both sites active	✓ (skill_prompt + pair entries)
Em dashes: absolute ban	✓ (tonal_governors + skill_prompt)
Nothing wasted — all fluids sacred	✓ (sacred economy all fluid entries)

Build completed 2026-04-12. Next build should address enhanced metadata schema rollout across remaining anatomical entries.
